

Annotations

Colour scheme:

Font - Lato:

Lato Bold </>

The quick brown fox jumps over the lazy dog

Navigation

- 1
- Deep chestnut background with white font.

Mobile: Navigation hidden until shown by clicking a hamburger menu, where the navigation will be flexed vertically down with the logo on the top. Hamburger will be statically fixed so user can activate the menu wherever they are on the page for useability.

Large screen: Flexed horizontal navigation bar with logo on the left hand side. Nav bar will be fixed at top on scrolling down the page for useability.

Header

- 2
- Dark sunset image with width 100% in the background with white company logo and white heading in large text shown text over it.

About section

- 3
- An introduction to the company. Heading will be in colour - darkgoldenrod and will have some section dividers in aqua for nice appearance.

Icons section

- 4
- Flexed layout of special features of the company. Include an icon in aqua followed by a heading in darkgoldenrod and a description in black. Each section should become larger on hover for interactiveness.

Mobile: 1 column layout

Larger screen: three columns layout

Offer section

- 5
- Heading of the section will have a background colour of deepchestnut with large white text as the heading.

The grid layout will have different images representing the different offers as backgrounds. The Image should be darkened in order to bring out the title text more. The name of the offer as a title in white and a button linking to view holidays page with background in deep chestnut with white text over.

On hovering over the button it should increase in size and darken. On hovering over each grid section the image should become darker to be clear to the user which section is being hovered over.

Mobile: vertical grid of width 100% with one column, all rows the same size

Larger screen: horizontal grid with width 100% and 2 columns and 3 rows of differing size

Popular destinations section

- 6
- Grid layout of featured holidays available. Should be an image flexed above a description of the holiday underneath. Title of the holiday should be in large text and maybe a button to take to view holidays page.

Mobile: vertical grid with one column

Larger screen: horizontal grid with 3 columns

Reviews section

- 7
- Grid layout of customers reviews. A picture of the reviewer followed by their name as a heading in darkgoldenrod and their review in black text.

Mobile: vertical grid with one column

Larger screen: horizontal grid with 3 columns

Blogs section

- 8
- Grid layout with featured latest blogs. Each section of the grid should have an image with the title of the blog in large text positioned with dark opacity background over the image at the bottom. Hovering over the blog should be interactive (the image zooms in).

Mobile: All blogs will be the same size in a 1 column grid.

Large screen: 2 column grid with most recent blog appearing the largest with two smaller blogs on the right of it

Footer

- 9
- Background colour in deep chestnut with white fonts – similar to navigation bar. There will be a grid layout with a logo, links to other pages, contact details and a follow section with social media links.

Mobile: vertical grid with one column, 4 rows

Larger screen: horizontal grid with four columns, 1 row
